RETURNS CONFIRMATION

Returns Number 60103657

Document Date 01/31/2025

The return of the above material has been authorized, subject to the following terms and conditions:

1. This Return Material Authorization must not be altered.
2. Shipping label and packing list information must include the RMA number ,number of cartons and the quantity of materials within each carton.
3. Anti-Static packaging must be used when shipping ESD sensitive materials. ESD sensitive materials returned without ESD protection will be deemed and assigned a Non-warranty status.
4. All non-warranty materials returned must be shipped to KEG DDP, Delivered Duty Paid(Incoterms 2010), Freight Pre-paid. Any Freight Collect shipments will be refused.
5. We reserve the right to collect freight charges for those materials returned to us as Warranty Materials that are subsequently determined byus to have no trouble found or to be otherwise non-defective.
6. A copy of this Returns Confirmation form must be completed and accompany the returned materials.
7. We will determine the material warranty status for each unit. Non-warranty status will be assigned to materials which have been damaged, altered, subjected to unauthorized repair, misused, have exceeded the warranty period or are not defective.
8. Non-warranty returned material which cannot be repaired within the customer's rework cost limit will be scrapped and disposed of perthe instructions listed above.
9. Customer agrees to pay all rework charges (i.e. Shipping, handling, material, labor, etc.) for materials returned having a non-warranty status.
10. Customer agrees to the above terms and conditions and authorizes the material return.
